

Seam Testing Fluid

USIF Marine Seam Test Fluid

**Industry proven
High performance
Tank Seam Testing**

A state-of-the-art fluid for leak testing tanks, cylinders, bulk-heads, etc at 5 to 10 lbs. air pressure. Superior performance than other known leak testing fluids. Detects smaller leaks than other fluids. Dries clean.

Application: Thoroughly mix 4oz of leak test concentrate with 5 gallons of water. Brush or pour on seams and watch for bubbles.

Use of safety glasses is recommended.
