

# *Internal Tank Rust Preventative* *USIF Marine Ballast*

**Cutting Edge  
Corrosion  
Protection**

USIF Marine Ballast Tank RP is an efficient performance rust preventative. Formulated with petrolatum and other performance additives, it provides a soft but tough film. This product displaces moisture and penetrates and arrests existing rust and corrosion and provides long-term surface protection. USIF Marine Ballast Tank RP provides a hardness level of equivalent to an NLGI 5 grease and can be heated for application by brush, immersion or spraying. USIF Marine Ballast Tank RP meets or exceeds MIL-C-11796C Class 3.

## **Features**

- ◆ Superior Protecting Power
- ◆ Waterproof
- ◆ Non-hardening
- ◆ Self Sealing
- ◆ Penetrating
- ◆ Soft but Tough Film

## **Physical Properties**

|                         |                      |
|-------------------------|----------------------|
| <b>Appearance</b>       | Soft Solid           |
| <b>Odor</b>             | Characteristic, Mild |
| <b>Specific Gravity</b> | 0.92                 |
| <b>Flash Point, F</b>   | 360                  |
| <b>Melting Point, F</b> | 130                  |
| <b>Meets</b>            | MIL-C-11796C Class 3 |
